## DOUBLE ROW TERMINAL BLOCKS 100 SERIES

### DESCRIPTION

**100 Series Double Row Terminal Blocks** are designed for electrical and electronic termination of wire, with or without the use of a terminal connector, for low voltage and amperage requirements. These double row terminal blocks provide an insulation barrier between circuits to prevent short circuits in factory or field wiring applications.

### FEATURES

- *Closed-back design*
- *Insulation barrier between poles*
- *Multiple pole arrangements*
- *Easy to install*
- *Surface mounted*
